1. The applicant is hereby notified that this International Preliminary Examining Authority transmits here with the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the *PCT Applicant's Guide*.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

PCT/KR2004/000821

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-22	YES
	Claims	None	NO
Inventive step (IS)	Claims	None	YES
	Claims	1-22	NO ✓
Industrial applicability (IA)	Claims	1-22	YES
	Claims	None	NO

2. Citations and explanations (Rule 70.7)

Reference is made to the followings documents;

D1: KR 2003-027425A (LG Electronics Co.) 07 APRIL 2003

D2: Jong-Hyun Lim and Hae-Wook Choi, "Adaptive motion estimation algorithm using spatial and temporal correlation", 2001 IEEE Pacific Rim Conference on Communications, Computers and signal Processing, Volume 2, pp. 473-476, 26-28 Aug. 2001.

Claims 1-22 meet the criteria set out in PCT Article 32(2), because the subject-matter is novel over the documents D1-D2.

The document D1 discloses an adaptive decision method for motion vector search range, comprising a step for deciding sets of maximum motion vectors of adjacent blocks, a step for deciding a set of maximum motion vectors of the current block among the above motion vectors, a step for deciding maximum area of motion vectors, and a step for deciding a final area of motion vectors. D2 discloses an adaptive motion estimation algorithm using spatial and temporal correlation, characterized by selecting adaptive search window per macroblock using 3 spatial macroblocks and one temporal macroblock.

It appears obvious for a person skilled in the art to use D1-D2 to arrive at Claims 1-22, which include a method and an apparatus for deciding a search range for motion vector prediction, thus the inventive step of the subject-matter claimed cannot be acknowledged, thereby Claims 1-22 cannot meet the criteria set out in PCT Article 32(3) under the documents D1-D2.

Claims 1-22 meet the criteria of PCT Article 33(4), because the invention can be used to a method and an apparatus for determining motion vector search range in video encoder.
